EMPOWERING LEADERS THROUGH MINISTERIAL, EVANGELISM, AND DISCIPLESHIP TRAINING

# AFRICA

## Your Time Has Come!

We believe Africa is ready to become missions-minded!

Dear Friend,

Ron Kinneer

I'm eager to tell you of the great opportunity we are embarking on to help missionaries! You will find African missionaries in many countries of the world. But most often, they are targeting their own countrymen while they are planting churches. Usually, they stay within their own church culture, which is foreign to European and American countries. Overflow finances are often sent back home to support their families and the local church or churches where they pastored. In our research, few of these missionaries have partnered with churches in their new country.

Many believers have been called to missions, and many have responded. **But few have been equipped!**

With the acquisition of **Missions Exposure and Training (MET)**, we plan to mobilize the African church to participate in the full spectrum of missions. We will offer specialized courses that will enable African missionaries to partner with existing churches, addressing real needs. For instance, the refugee crisis in Europe has brought millions of destabilized people that could and should have been evangelized.

**We need to finish paying off the MET properties so we can get this training started!** Offered to us at the cost of the original investment that the seller purchased them, there is not even a charge for the vehicles, furniture, office equipment, linen, kitchenware, etc.! Pray and believe with us that the Lord will meet our need. To learn more about MET see the AM-News for May: <http://www.africamissions.org.za/images/21-AMNews/21-05-AMNews-MET.pdf>

Africa Missions is obtaining Missions Exposure and Training in Pretoria, South Africa to allow us to train African missionaries to change the world!

The bonus is that this complex can also accommodate visiting short-term mission teams!

Covid-19 has frustrated many of our plans this year! We had planned to visit the USA, but South Africa is on the Covid Red List, making it difficult for us. To enter the USA, we would have the option of quarantining in a Covid Green country for 10 to 14 days before flying into the USA. With the expense involved in the Green country and the cancellation and re-routing of our flights, it proved too expensive. The Delta strain was very aggressive and spread rampantly. At the height of the third wave, daily infections topped 20,000! For a country with a population of 55 million, that is very high. Sadly, we have lost family, relatives, friends and colleagues daily from July 1st to the middle of September!

South Africa's lockdown has affected MET's training programme, but we are all set to start-up in the new year! The participants (pastors and church leaders from the Democratic Republic of the Congo and an independent country called Congo with Brazzaville as its capital city) have been recruited. The lecturing staff is ready and waiting, and the dormitories for 35 students are prepared.

We need financial support for this significant project of MET. We have taken over a ministry from the Pentecostal Assemblies of Canada. This ministry is focused on raising awareness of missions and mobilizing churches all over Africa to become involved in missions! This is our DNA. We have been doing this. In fact, we have partnered with MET (Missions Exposure and Training) since its inception.

Thank you for seeking God on our behalf with this great leap of faith. We can only do this together! Would you also ask God what He would have you do?

### Helping to equip missionaries
